

Task 1: Prompt for Generating a Responsive Dynamic Web Page (PHP + Front-End)

Act as a Senior Full-Stack Developer specializing in PHP and Web Fundamentals.

Create a single dynamic responsive web page using native PHP, HTML5, CSS3, and JavaScript (Vanilla JS).

Follow these specific instructions:

1. Backend Logic (PHP):

- At the top of the file, handle a POST request for a dynamic Contact Form.
- Sanitize and validate the incoming input fields (Name, Email, Message).
- Generate dynamic feedback messages (Success or Error) using native PHP session/variables and display them conditionally on the page.
- Include a dynamic PHP feature (e.g., dynamically render an array of Services/Features using a foreach loop, and display the current Year dynamically in the footer).

2. Front-End & Responsiveness:

- Structure: Semantic HTML5 tags (<header>, <nav>, <main>, <section>, <footer>).
- Styling (CSS): Mobile-first CSS with CSS Grid and Flexbox. Fully responsive for Mobile (<768px) and Desktop (>1024px).
- JavaScript: Add script for toggling the mobile navigation menu.

Deliver the entire working code inside a single valid `.php` file with inline clear comments.

Task 2: Build Plan for a Trip

Act as a Professional Travel Planner and Presentation Designer.

Create a comprehensive 5-Day Trip Plan to Dahab.

The final output must be structured explicitly as a Slide-by-Slide Presentation Outline so I can directly copy it into PowerPoint/Gamma.

Structure the presentation into 7 Slides as follows:

- Slide 1: Title Slide (Trip Title, Subtitle, Date, Presenter Name).
- Slide 2: Trip Overview & Objectives (Key highlights, estimated total budget, primary travel modes).
- Slide 3: Detailed Itinerary (Days 1 & 2) - Morning, Afternoon, Evening breakdown.
- Slide 4: Detailed Itinerary (Days 3 & 4) - Morning, Afternoon, Evening breakdown.
- Slide 5: Day 5 & Departure Plan - Final activities, packing, and checkout logistics.
- Slide 6: Budget Breakdown & Essentials (Accommodation, Meals, Activities, Emergency Fund).
- Slide 7: Packing Checklist & Important Travel Tips.

For EACH slide, provide:

1. Slide Title
2. Bullet Points (Keep concise for presentation slides)
3. Visual Suggestion (Description of image/icon to include on the slide)
